## SECRET/NOFORN-SKEET CHANNELS ONLY

PROJECT SUN STREAK (U)WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

## CRV Session Procedures Report (S/NF/SK)

Control Number	: 'M'
Date of Session	: 01May87
Date of Report	: 04May97
Source Identifier	: 011

099  
0827  
1010

1. (S/NF/SK) Tasking: Original tasking data sheet attached. Monitor drew upon prior CRV sessions and ops officer amplifying instructions for cuing material.

2. (S/NF/SK) Session: [NOTE: This source is still undergoing Stage V training]. Source acquired target immediately; excellent Stage III, excellent session, particularly in view of the fact that this was source's first attempt at this target.

3. (S/NF/SK) Summary: Target is a large, long, boxy, angular vehicle, but this is not the main concern (intelligence question); rather it is something that is associated with the vehicle. Vehicle is perceived to be located in a forested area with tall pine trees. The area around the vehicle is separately secured. There is something that is associated with this vehicle--a part of it which is mounted or carried, that is not always visible. This seems to be connected with the idea of a "system".

4. (S/NF/SK) Feedback: Source was informed that the target was indeed a vehicle and that he would revisit it again.

POST SESSION

1 MAY 87

1010 hrs

AOL

The device/object of interest is mounted or carried on a large body vehicle. It is mobile. The object is part of a system. There are other vehicles associated with this system. This object is carried by, or is a part of the vehicle, but it is not always visible. This object/device can move up and down almost 90° and can rotate 360°. It is as if its function was to track something. This device can move up and down and rotate amazingly fast.
